Certified for Microsoft Dynamics® Solutions
Proven. Tested. Recommended.

Need proof before you buy a new solution?

Your company is uniquely designed to fill a specific need in the market—that's what makes you successful. That's also why you need a business solution that is proven to meet your unique needs. You want assurance that the solution you invest in meets the highest quality standards, is backed by a reputable company who is as committed to your success as you are, and—most importantly—is recommended by other companies like yours.

Microsoft set the bar high by developing the Certified for Microsoft Dynamics accreditation. It sets a small group of proven, tested, and recommended business solutions apart from thousands of other solutions that have not met the rigorous requirements.

North52's Business Process Activities solution has earned the Certified for Microsoft Dynamics accreditation.

Solutions that are Certified for Microsoft Dynamics have met Microsoft's highest standard for partner-developed solutions. They are:

- Designed to help meet your unique business and industry needs
- Tested and seamlessly integrated with Microsoft Dynamics products
- Used and recommended by other companies like yours

Here it is.

See how choosing Certified for Microsoft Dynamics solutions have helped these companies:

Dalosy

"The fact that our solution is Certified for Microsoft Dynamics proved to us that the Service Management Module is an integral part of our Dynamics system with the same quality and look and feel, and therefore much easier to use."
Jan Penning, General Manager

JYSK Canada

"Because our e-Commerce solution is Certified for Microsoft Dynamics, JYSK benefits from confidence in knowing that the solution is proven, easy to support, and backed by the expertise of a Microsoft Gold Certified Partner"
Grettir Bjornsson, IT Manager

Choosing a solution that's Certified for Microsoft Dynamics can give you the proof you need.

North52 Business Process Activities

Proven. Tested. Recommended.
